

Ahsan Malik

Machine Learning Engineer

ahsan.malik@example.com | +92 300 555 0141 | Lahore, Pakistan

PROFESSIONAL SUMMARY

Machine Learning Engineer with 3+ years of experience developing and deploying computer vision and NLP systems. Strong Python and PyTorch background with hands-on experience in model training, evaluation, APIs, Docker, and production ML workflows.

TECHNICAL SKILLS

Python, PyTorch, TensorFlow, Scikit-learn, OpenCV, Pandas, NumPy, SQL, Docker, FastAPI, Git, AWS, Machine Learning, Deep Learning, Computer Vision, NLP

PROFESSIONAL EXPERIENCE

Machine Learning Engineer | VisionAI Labs | Lahore | 2023–Present

- Developed and deployed image classification and object detection models using PyTorch and OpenCV.
- Built FastAPI inference services and containerized ML applications with Docker.
- Designed data preprocessing, augmentation, training, evaluation, and monitoring pipelines.
- Worked with AWS S3 and EC2 for model artifacts and inference workloads.

ML Engineer Intern | DataWorks | Lahore | 2022–2023

- Trained classical ML and deep learning models for business datasets.
- Built SQL-based data extraction and preprocessing workflows.
- Created model evaluation notebooks and reusable Python utilities.

EDUCATION

BS Computer Science — University of Lahore, 2022 | CGPA: 3.42/4.00

SELECTED PROJECTS

Real-Time Object Detection API — PyTorch, YOLO, FastAPI, Docker
Customer Churn Prediction — Scikit-learn, Pandas, SQL

CERTIFICATIONS

AWS Certified Cloud Practitioner; Deep Learning Specialization
