

Hamza Raza

Computer Vision Research Assistant

hamza.raza@example.com | +92 303 555 0492 | Peshawar, Pakistan

PROFESSIONAL SUMMARY

Computer Vision Research Assistant with 4 years of academic and research experience in image processing, deep learning, and neural networks. Strong research background with TensorFlow and OpenCV; limited production engineering and cloud deployment experience.

TECHNICAL SKILLS

Python, TensorFlow, Keras, OpenCV, NumPy, Pandas, CNNs, Computer Vision, Deep Learning, Image Processing, Git, MATLAB

PROFESSIONAL EXPERIENCE

Research Assistant | Vision Research Lab | Peshawar | 2022–Present

- Developed CNN-based image classification systems using TensorFlow and Keras.
- Performed image preprocessing, augmentation, and experimental evaluation.
- Worked on object detection and segmentation research using OpenCV and deep learning.
- Prepared research reports and presented experimental findings.

Graduate Research Intern | AI Lab | Peshawar | 2021–2022

- Implemented image processing experiments in Python and MATLAB.
- Compared CNN architectures across multiple image datasets.

EDUCATION

MS Computer Science — University of Peshawar, 2022 | CGPA: 3.61/4.00

BS Computer Science — University of Peshawar, 2020 | CGPA: 3.48/4.00

SELECTED PROJECTS

Medical Image Classification — TensorFlow, CNN, OpenCV

Object Detection Study — OpenCV, TensorFlow

CERTIFICATIONS

Deep Learning with TensorFlow — Professional Certificate
